WR — WORLD ROUTES, WOVEN RIGHT

WR INDUSTRIES CO., LTD. · EST. 2025. 12 · SEOUL, KOREA

ABOUT US

About us

WR Industries is an apparel manufacturing and import-supply company founded in Seoul in December 2025. Our professionals, with over thirty years of industry expertise, connect Korea, Bangladesh, and China like a single production line.

MISSION & VISION

Good clothes come from good processes

Our processes cross borders. We connect Bangladesh's production capacity, China's materials, and Korea's quality standards — taking responsibility for delivery, quality, and trust.

VALUE 01

Quality

Full pre-shipment inspection to Korean quality standards. No tolerance for gaps between buyer spec and actual goods.

VALUE 02

Delivery

We directly manage production, shipping, and customs to control lead time. A promised date is a contract.

VALUE 03

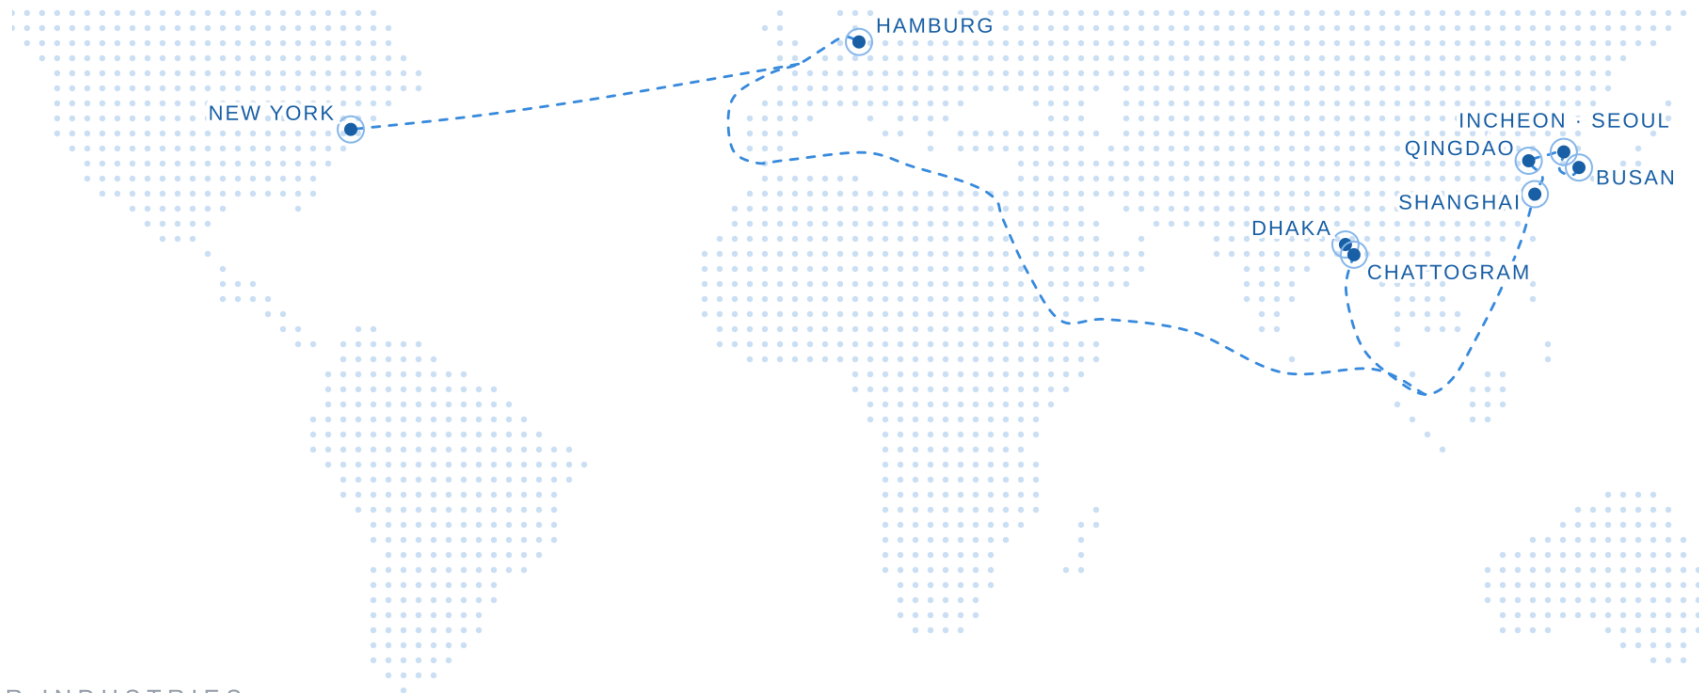

Trust

We aim for long-term partnership, not one-off deals. We keep every promise — and you hear about issues from us first.

GLOBAL NETWORK

Three markets, one route

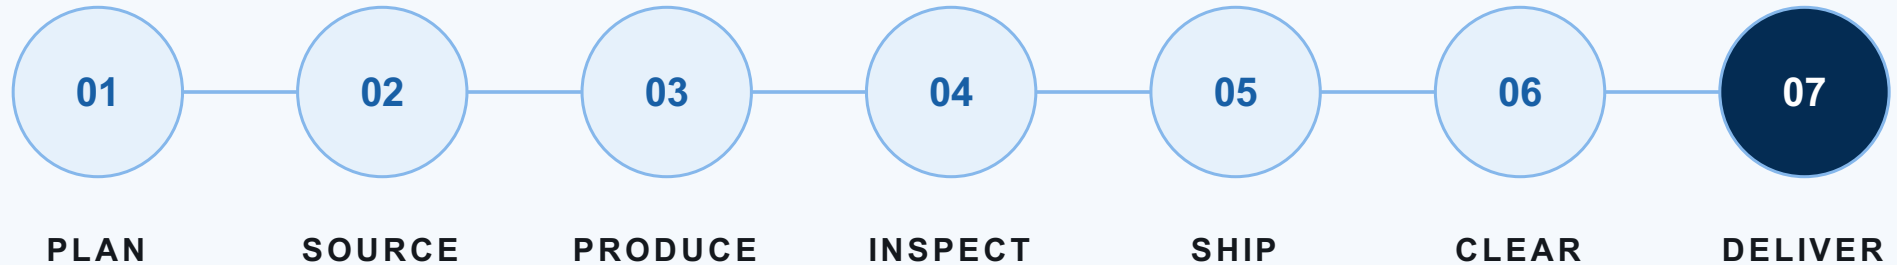

Made with Bangladesh's garment production capacity, China's materials, and Korea's quality standards — our products flow to Korea, and on to Europe and the Americas.

BUSINESS MODEL

One-stop, from planning to delivery

WR directly manages all seven stages. No middlemen — faster execution and clear accountability.

QUALITY & COMPLIANCE

Zero-defect in quality and documents

01	Sample verification	Sample-room development, buyer approval, cross-check against bulk production
02	In-line QC	Four-stage in-line inspection (parts, preparation, garment, folding) with dedicated QC staff
03	Sizing & safety	Sizing per buyer measurement sheets, broken-needle procedure, 100% metal detector pass
04	Pre-shipment inspection	Final AQL-based inspection before shipment — failed lots do not ship
05	Document consistency	Specialists in Bangladesh logistics and customs handle every document — delay-free trade operations

W H Y W R

Why work with WR

Direct three-country operation

Korea HQ + Bangladesh production + China sourcing, connected directly with no middlemen.

Zero-discrepancy documents

Working with specialists in Bangladesh logistics and customs, we remove delay factors from the document stage — trade that never stalls.

Real-time trilingual communication

Korean, English, and Bengali — eliminating errors between factories and buyers.

One-stop accountability

One window from planning to delivery — if a problem arises, WR solves it.
